

Everyone at Kids & Horses is enjoying this lovely spring weather. It's making us excited for the sunny, summer days to follow. We are pleased to announce that we are starting our veterans program at the ranch! We are so excited to be welcoming veterans to Kids & Horses. If you know someone who may be interested, have them contact us to learn more. The program will be on Fridays. Other details have not yet been determined. We also have, over the past few months, made some additions to our ranch. Risa, Lacey, Little Buck, Callie, and Remi have joined our herd. Risa is gorgeous, well-trained Dutch Warmblood. She makes a great partner for many of our independent riders. Lacey and Little Buck are our Haflingers from Montana. Callie is adorable Andalusian and Remi is a sweet Appaloosa. Lacey, Little Buck, Callie, and Remi are currently undergoing training to become therapy horses. Each of them has a likeable personality and is expected to flourish in our program.

Our Fifth Annual Kids & Horses Golf Tournament is fast approaching. It will be held at the Championship Course in Incline Village, NV on June 14th. Please visit our website for details and to learn more about sponsorship opportunities and to sign up to play.

There are little miracles that frequently occur on our property. Stories, like the one below, are often shared throughout our community. We are amazed at the way horses bring healing and hope to our clients. However, it is often forgotten how this is all possible. Kids & Horses is currently serving around eighty clients. We have thirteen therapy horses on the property that require our attention and care. Without our generous donors, caring volunteers, dedicated staff, and Board of Directors, Kids & Horses wouldn't be able to operate at all. They are all absolutely vital to continue offering the services we do now. As you can see, it takes a community for our program to thrive. Kids & Horses is a firm believer in partnership because without it, we wouldn't be here.

If you are an active supporter of our program, in whatever capacity that might be, thank you. Thank you for the smiles that appear on the faces of our clients and the progress that is made. Kids & Horses wouldn't be able to do it without you. In order to further help our program, please spread the word! If you know someone who would benefit from our services, be interested in volunteering, or in making a donation, send them our way. Let us all take part in growing Kids & Horses and educating the surrounding community about the wonderful things that take place on our property.
